INVENTING THE FUTURE OF PACKAGING

FASTTrack PAPER PAK'R®

PACKAGING SYSTEM

The FASTTrack PAPER PAK'R® system, is small, fast, efficient, easy to operate and reliable. It can be used as a stand-alone work station or integrated in-line over conveyors, to increase productivity and orders shipped per day.

FAST! The fastest paper machine available, dispenses at speeds up to 5 1/2 feet per second (18 cubic feet per minute).

FLEXIBLE PROGRAMMING! Built-in, touch-screen keypad allows operator to make exact pre-set lengths to meet specific packing needs. Maximizes productivity and controls material cost.

AUTO INDEXING (AI) FEATURE allows the operator to program the exact amount of paper required. The AI feature automatically replenishes the paper "on-demand" so it is always available to pack the next carton. It operates at all three speeds: slow, medium, and fast.

EASY DISPENSING! Mobile/Modular Stand with adjustable height and locking casters for optimal ergonomic positioning over any conveyor or pack table. Optional, detachable packing table is available also.

COST SAVINGS! Efficient paper dispensing increases productivity and orders shipped per day.

MULTIPLE PAPER GRADES! Single ply 30# and 40# basis weights and optional Dual Paper Roll Kit for producing two-ply "finished" paper available to meet many packing applications (void fill, block & brace, cushioning, interleaving, and wrapping).

FASTTrack PAPER PAK'R machine shown mounted on adjustable, lightweight stand with optional Dual Roll Kit that makes two-ply paper. Foot pedal provides hands free operation.

Roll Paper:

Model I: Single-ply 30# basis wt., 24" W x 2000' L; approx. 40 lbs./roll
40# basis wt., 24"W x 1500' L; approx. 40 lbs./roll

Model II: Single-ply 30# basis wt., 27"W x 2,667' L; approx. 60 lbs./roll
40# basis wt., 27"W x 2,000' L; approx. 60 lbs./roll

Double-ply – Both models can run two rolls of 30# paper

Recycled or virgin paper available

Machine weight (without paper roll): 150 lbs.

Electrical: 110V / 15 amps

Overall machine dimensions: 74"H x 32"W x 40"D

Dispensing height: adjustable 56" to 72" H

Machine speed: 3 speed settings; can be adjusted from slow (3 feet per second), to medium (4 feet per second) to fast (5.5 feet per second)
